## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, after the section header "Description" please insert the following new line of text:

--This application is a divisional of United States Application 09/763,413, filed June 11<sup>th</sup> 2001, now United States Patent 6,677,293.---

2. The following is an examiner's statement of reasons for allowance:

3. The examiner agrees with those arguments presented by the applicant during the interview of 8/14/2006 and those statements made in the after final amendment dated 8/17/06.

4. In particular the specific thermodynamic state of a "microemulsion" is not taught in the prior art of record, nor does the prior art provide sufficient motivation or direction for forming this type of emulsion. Although the prior art teaches the use of a regular emulsion, a microemulsion is transparent and is more stable than a normal emulsion.

Art Unit: 1796
